Council Regulation (EC) 1360/2002
Interoperability Certificate N°. JRC_DTC/AC-081/23-101/MA01/2016

Manufacturer :	Centr Modernizacii Transporta OOO (CMT - LLC) 125480, g. Moskva, ul. Geroyev Panfilovtsev, d. 24, kom. 320 RUSSIAN FEDERATION
-----------------------	--

Specimen under Test	Interoperability Tests on Digital Tachograph Cards Gemalto AG Tru/cos Version 1.1
Functional cert.	Ministry of Transport of Russian Federation n° 09-037C-01 of 23/12/2015
Security cert.	BSI-DSC-CC-0889-2013

Test Specification:	Interoperability Test Specification v2.3 (JRC S&T Reports: JRC75155 - 2012) Interoperability of the Driver, Workshop, Control and Company Digital Tachograph cards has been demonstrated with the following recording equipment and motion sensors:
----------------------------	--

Vehicle Unit	Security Certificate
Actia SMARTACH STDII version 6.11	DCSSI 2005/14 and M-2006/10
Continental Automotive GmbH DTCO 1381, Release 2.2	BSI-DSZ-CC-0936-2015
Intellic GmbH – EFAS-4 v02	BSI-DSZ-CC-0726-2012
Stoneridge Electronics AB SE5000 Revision 7.6	BSI-DSZ-ITSEC-0959-2015

Motion Sensors		
Actia IS2000 SMARTACH LXRY	Siemens VDO KITAS 2171	Siemens VDO KITAS 2171 2 nd Generation

Validity of this certificate:	21/12/2016	(EC) 1360/2002 requirements 286 ¹ and 289 ²
Public web site:	https://dte.jrc.ec.europa.eu	(EC) 1360/2002 requirement 290
Remarks :	Cards personalized for Russian Federation	

Technical Responsible
M. Chiaramello

Head of Unit
J-P. Nordvik

¹ Requirement [286]: The interoperability certificate is valid for six months. It is revoked at the end of this period if the manufacturer has not received a corresponding type approval certificate. It is forwarded by the manufacturer to the type approval authority of the Member State who has delivered the functional certificate.

² Requirement [289]: The type approval certificate shall be copied by the type approval authority to the laboratory in charge of the interoperability tests at the time of deliverance to the manufacturer.
